

SCREENING AND CHECK IN PROTOCOLS:

When you arrive for an appointment, you will notice some changes with our check in protocols. We have modified our reception room to allow for patient screening and social distancing.

- If you have a mask, please wear it at all times during your visit to our office. Once in the operatory, you will be instructed when to remove your mask for your treatment. If you do not have a mask, we will provide a Level 1 mask for you when you arrive.

We will have a staff member available to assist you with these new protocols:

- Please adhere to social distancing protocols. Be aware of your proximity to others.
- Upon arrival, you will enter our reception room and be directed to our screening station.
- Once at the screening station, you will sanitize your hands or wash your hands with soap and water.
- You will then have your temperature taken and complete a screening disclosure form with one of our staff members.
- If you have a fever or answer one of our screening questions positively, we will need to reschedule your appointment.
- If you are cleared to proceed with your appointment, you will be checked in at the front counter.
- You will also complete a consent for treatment form prior to your appointment.
- If you are early for your appointment, we may ask you to wait in your car. We would then call or text you when we are ready for you. Your screening will already be complete, however, you will be required to re-sanitize or re-wash your hands upon reentry.
- We ask that patient's friends or family wait in the car during your appointment.

For future updates, please continue to check our website www.implantdds.com , our Facebook and Instagram pages.

Thank you

We are all dealing with a lot of changes right now. We understand some of our patients are eager to come in for their appointments, while others want to delay appointments until they are comfortable. What's important is that whenever you are ready to schedule, you are confident that we are prepared to provide you with excellent care at each appointment and during every phone call. Please feel free to call us with any questions. We are happy to review our new protocols with you.

If you had an appointment with one of our Doctors that was cancelled, our business team will be calling you to reschedule. Our business team will also be calling Hygiene patients to reschedule, but feel free to call us to reschedule if you prefer. We appreciate your patience during this process, as contacting all of our patients who were affected will require a significant time commitment.

We ask anyone who is not feeling well to please reschedule your appointment or refrain from scheduling an appointment until you are completely well.

During the foreseeable future, we will allow only patients to come back to our operatories, in order to reduce exposure to patients and staff. Exceptions will be made for parents escorting minor children. However, children will not be allowed to be present during their parent's appointment.

For future updates, please continue to check our website www.implantdds.com , our Facebook and Instagram pages.

Thank you
